## Your **JOURNEY** to **WELL-BEING** starts here

Dr. Andrew Weil Integrative Footwear's ground-breaking design will take you where you want to go, balanced, energized and in comfort. Find your path and walk your way to optimum health.

Flat sandal

Weil sandal

## clinically shown technology

Our innovative system provides support and comfort from the ground up, counteracting the daily grind of walking on hard and unnatural surfaces. By allowing your feet to function as they were designed, our footwear helps restore your freedom to move with ease.

**AMS**  
AIDED MOTION SYSTEM

Aided Motion System (AMS): Combines clinically shown Tri-planar Motion Control & 1st Ray Flex Zone technologies to naturally adjust foot alignment, resulting in healthy biomechanical movement of the foot

**1<sup>ST</sup> RAY**  
FLEXOR ZONE™

1st Ray Flex Zone: Softer Midsole Density Allowing for Natural Plantar Flexion

Rubber outsole pod to maximize 1st Ray Flex Zone functionality

**PODIATRIST**  
DESIGNED

Podiatrist designed removable orthotic footbed

integrative footwear™

Dr. Weil has devoted the past four decades to developing, practicing and teaching others about the principles of integrative medicine. He is the Founder and Director of the Arizona Center for Integrative Medicine (AzCIM) at the University of Arizona in Tucson. AzCIM has trained more than 500 physicians and other practitioners, many of whom are now leading integrative medicine initiatives at medical centers in the U.S. and abroad.

Dr. Weil received both his medical degree and undergraduate AB degree in Biology (botany) from Harvard University.

## MEET DR. WEIL

Andrew Weil, M.D., is an internationally recognized leader in the field of integrative medicine, a healing-oriented approach to health care which encompasses body, mind, and spirit.

The **WEIL** Foundation

Andrew Weil, M.D., donates all of his after-tax profits from royalties from sales of Weil Integrative Footwear products directly to the Weil Foundation, a not-for-profit organization dedicated to supporting integrative medicine through training, education and research.
